Dear Sir:

In response to the Restriction Requirement dated August 1, 2007, Applicants provisionally elect Group I, claims 1 and 3-6, drawn to a gaming machine with a game result display device, with traverse.

It is respectfully submitted that the subject matter of all claims is sufficiently related that a thorough search of the subject matter of any one group of claims would necessarily encompass a search for the subject matter of the remaining claims. Thus, it is respectfully submitted that the search and examination of the entire application could be made without serious burden. See MPEP 803 which is stated that "if the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims that are distinct or independent inventions" (emphasis added).

Docket No.: SHO-0026
(80380-0026)

It is respectfully submitted that this policy should apply to the present application in order to avoid unnecessary delay and expense to Applicants and the duplicative examination by the Patent Office.

Dated: August 14, 2007

Respectfully submitted,

By
